

MANUEL CASTRO PEINADO

JUNIOR MULTIPLATFORM & BACKEND DEVELOPER | JAVA & SPRING BOOT

ABOUT ME

Multiplatform Developer and Backend Developer with a background in Mobile Application Development and Computer Engineering. Passionate about designing and developing scalable software solutions across multiple platforms, with a strong focus on backend architecture, REST APIs and databases. Proactive and fast-learning developer committed to writing clean, maintainable code and continuously improving my technical skills, particularly in Java, Spring Boot and modern development technologies.
